SIX WAYS

**Automating Your Welding and
Cutting Can Save You Money!**

Advantages

of

Automating

Your

WELDING & CUTTING

1 **INCREASE** Production

The machine replaces the operator's hand to control the process.

2 **IMPROVE** Quality

Precise speed and path control improve appearance and quality.

3 **REDUCE** Material Handling

Take the small light-weight machine to the work. Work in all positions.

4 **REDUCE** Distortion

Provides uniform heat input, puts the right amount of weld in the right place.

5 **IMPROVE** Worker's Environment

Keeps the worker further away from the arc and reduces operator fatigue.

6 **ADAPTABLE** Flexible Modular Construction

Adapts to your job.
